

Pregãos – announcements in Portuguese

Pregãos - announcements can be made (172L):

- During Shacharit: after Kaddish Titkabal. On Days of Torah Reading: before Hanotin.
- Between Minchah and Arvit (**JBS: together**): between the two prayers before Utshu'at. In the Omer (**JBS: Minchah and Arvit separately**) during Minchah after Kaddish Titkabal and during Arvit before the start, on which the verse Utshu'at is repeated by the Chazzan.
- During Arvit: between the Kaddish and the Amidah and after the Tefillah.

The numbers in brackets refer to the page **in Seder Hazzanut Brandon** where this Pregão is mentioned. E.g. (174L) refers to page 174, left column.

The pregãos regarding tefillah starting times are mostly left out. They can be made at the various points and are only done if the time is not fixed e.g. Minchah Friday (178R) or deviates from the standard time e.g. on Purim (203R). Example: "Minchah se rezará esta tarde a xxx hora", where xxx is can be found **elsewhere on this site** ^[1].

Since the 1980's, the pregãos are said in Portuguese and repeated in Dutch, English and Hebrew. **SB** made **list of translations** of the most impotent pregãos without English and phonetic Hebrew. **JBS** made a **new version** solving these shortcomings.

So in the winter the earliest Mincha time is at 13:10 and in the summer at 14:10 due to summertime adding another hour.

^[2] as Yom Tov has its own **assignments of Mitzvot (honours)**, it is announced that the Mitzvot assignment of Shabbat is valid for *all other days of Torah reading* during the week

^[3] Only on page 179R it says "resto", in this case the last two days of Pesach are on Shabbat and Sunday.

^[4] The pregão is only mentioned, not written on page 204L
